

# **MAKING WAVES IN MARITIME DESIGN, ENGINEERING & CONSULTING**

Capability in depth  
**PROJECT  
MANAGEMENT  
SERVICES**

# UNLOCK A HUGE RANGE OF EXPERIENCE

**Rubicon Associates brings deep expertise in maritime systems** project management, spanning Defence platform integration through to the oversight of large-scale vessel programs—both within Australia and internationally.

**Our capabilities cover the full asset lifecycle**, from shipbuilding to ship repair, encompassing strategic planning, shipyard operations, performance management, construction monitoring, and owner's engineer surveying.

Whether supporting high-value, complex programs or lower-cost, lower-complexity projects, our design services are **underpinned by proven methodologies and scalable frameworks**.

**The outcome is consistent:** enabling our clients to deliver projects with precision, efficiency, and confidence—on time, on budget, and aligned to performance objectives.

## THE BENEFIT OF INDEPENDENCE

**Engaging Rubicon for independent program and project assessment** unlocks the full breadth of our expertise across naval architecture, marine engineering, systems integration, cost estimation, asset management, and contract and risk management.

**Our evaluations provide objective, technically grounded insights** that enhance decision-making, strengthen assurance, and drive successful outcomes across complex maritime and Defence programs.

**As a multi-disciplinary consultancy**, we offer independent tender or project evaluations, cost benefit analyses, and business case development for all types of naval platforms and other defence programs.

### SERVICES ENCOMPASS:

- High-level strategy development
- Interface management
- Stakeholder management
- Contract management
- Construction management
- Change management
- Risk management
- Cost estimation
- Cost management and reporting
- Planning and scheduling

## “TRANSFORMED OUR PROJECT OUTCOMES”

*“Rubicon didn't just address our technical requirements - they identified integration opportunities we hadn't considered and delivered a solution that exceeded deliverable outcomes while reducing long-term costs.”*

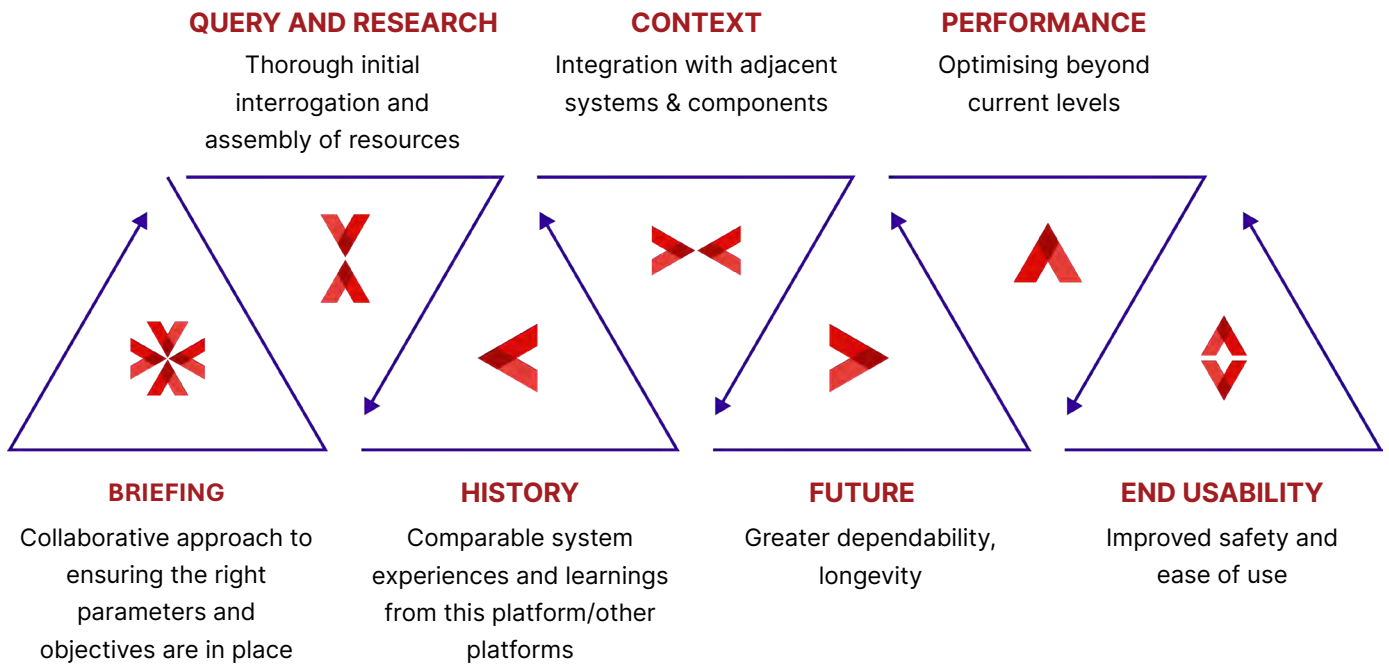

**PROJECT DIRECTOR, TIER 1 DEFENCE CONTRACTOR**

# THE RUBICON ADVANTAGE

## Integrated solutions to complex maritime challenges

Our pan-dimensional, collaborative methodology leverages our extensive multi-platform experience and innovative thinking to generate **Integrated Intelligence**; optimal engineering solutions, even those that may lie beyond the immediate design task, developed around fitness for purpose, safety, environmental friendliness, security and technical supportability.

## RUBICON MATRIX METHODOLOGY

### MULTI-PLATFORM EXCELLENCE

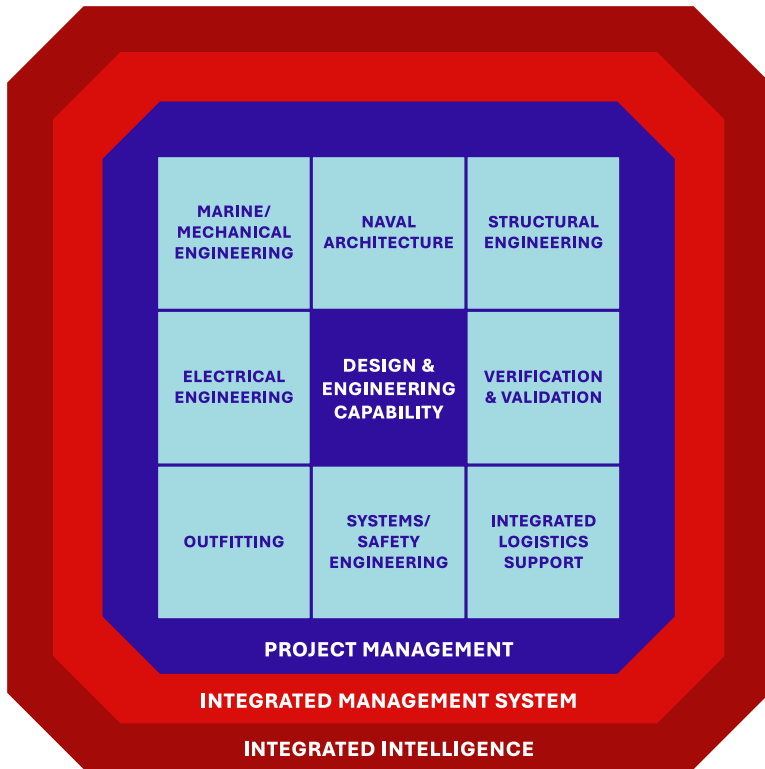

Through extensive experience as a multidisciplinary consultancy supporting the maritime domain, we have achieved a high degree of intimacy, knowledge and experience across most maritime environments and all RAN platforms. This, coupled with our expertise and proficiency regarding design philosophy, build strategy and asset life cycle management, provides to our clients a high degree of confidence in our ability to deliver well beyond expectations.

### TRUSTED PARTNERS OF INDUSTRY LEADERS

We proudly serve the Commonwealth of Australia, Defence Primes, and others that own, build, and maintain maritime assets both in Australia and internationally.

# INTEGRATED SOLUTIONS TO COMPLEX MARITIME CHALLENGES

RUBICON CAPABILITIES MATRIX

# 10

**YEARS OF  
EXCELLENCE**

as Rubicon, decades as  
senior industry experts.

# 100%

**AUSTRALIAN  
OWNED**

Committed to Australia's  
sovereign capability.
